SUMMARY OF SCOPE OF WORK

The Apalachee Regional Planning Council has been authorized to create a living shoreline along submerged lands through the placement of reef habitat fill material to create up to 20 acres of nearshore reef habitat in conjunction with the planting of up to 30 acres of intertidal marsh habitat along portions of Highway-98 in Franklin County. The reef habitat will provide irregularly shaped reefs which consist of shapes up to 75 feet long with 5-foot minimum gaps between segments to reduce the chance of swimming species entrapment. This project will begin with to the installation of 2.43 acres (Phase 1) of intertidal reef structures and sill, with additional acreage of reefs

anticipated to be added after construction commences. Planting of the saltmarsh will occur by others (not included in this scope of work) after the construction of the reefs/sills. Each structure will maintain a 15-foot buffer between the reefs and existing submerged aquatic vegetation (SAV). Depending on the voluntary participation by private property owners along the project study area, these reef habitat structures will cover up to 20 acres and consist of a combination of non-plastic materials such as rocks/recycled concrete, concrete-soaked natural materials, and precast concrete reef units in various shapes/sizes and configurations. All project activities will occur between the MHWL and -6 feet water depth (NAVD88).

INVITATION TO BID INFORMATION

1.1 INTRODUCTION/BACKGROUND

The ARPC has been authorized to create a living shoreline along submerged lands through the placement of reef habitat fill material to create up to 20 acres of nearshore reef habitat in conjunction with the planting of up to 30 acres of intertidal marsh habitat between the Mean High Water Line (MHWL) and -6 feet and not farther than 500 foot seaward of the MHWL. The reef habitat will provide irregularly shaped reefs which consist of shapes up to 75 feet long with 5-foot minimum gaps between segments to reduce the chance of swimming species entrapment. This project will begin with the installation of 2.43 acres (Phase 1) of intertidal reef structures and sill, with additional acreage of reefs anticipated to be added after construction commences. Each structure will maintain a 15-foot buffer between the reef segments and existing submerged aquatic vegetation (SAV). Depending on the voluntary participation by private property owners along the project study area, these reef habitat structures will cover up to 20 acres and consist of a combination of non-plastic materials such as rocks/recycled concrete, concrete-soaked natural materials, and precast concrete reef units in various shapes/sizes and configurations. The reef habitat structures will provide wave attenuation for the marsh. Intertidal marsh habitat will cover approximately 30 acres and be composed of a fringe marsh, dominated by *Spartina alterniflora*, landward of the reef habitat. All project activities will occur between the MHWL and -6 feet water depth (NAVD88).

PART 2

INVITATION TO NEGOTIATE INFORMATION

2.1 DISTRIBUTION OF INFORMATION

The Apalachee Regional Planning Counsel posts and distributes information pertaining to its procurement solicitations on at www.argp.org and DemandStar (www.demandstar.com).

It is the responsibility of the bidder to monitor the ARPC website and, if applicable, DemandStar. Properly registered bidders can expect to receive automatic notification of solicitations for bids and proposals, by participating purchasing entities. Bidder failure to retrieve available, required procurement information and include the appropriate documentation and information in solicitation responses may result in disqualification.

2.2 PRE-PROPOSAL MEETING, QUESTIONS, CLARIFICATIONS AND BID OPENING

Attending a pre-proposal meeting is mandatory as the project's scope of work, procedures, and specifications will be discussed at this time. It is the only time during the bid process that bidders may ask questions directly of the ARPC prior to submitting a bid.

ARPC will conduct the mandatory pre-proposal meeting in-person at the Apalachicola National Estuarine Research Reserve Nature Center (ANERR), 108 Island Drive, which will include a site visit to the project areas.

NOTE: For a bidder's attendance of a mandatory pre-proposal meeting to count, the bidder must sign in before the Procurement Specialist calls the end of that meeting. If the bidder is not signed in by that time, they will be disqualified from bidding on the project. If the mandatory pre-proposal meeting also includes a required site visit, then bidder must sign in, both at the pre-proposal meeting, and again at the end of the site visit, in order to have their attendance count and not be disqualified from submitting a proposal.

NOTE: Failure to attend a mandatory pre-proposal meeting will result in disqualification of your proposal.

If special accommodations are needed in order to attend a pre-proposal meeting or a bid opening, please contact the Apalachee Regional Planning Council at least 72 hours in advance.

All questions that occur outside of the pre-proposal meeting must be submitted to Procurement only, and must be received by the date indicated on the Bid Cover Page to be considered. Technical and/or specification questions will not be answered over the phone; they must be submitted by email directed to the Procurement Specialist conducting the solicitation (refer to Bid Cover Page). All questions submitted during the pre-proposal meeting are required to be formally submitted to be included as part of the addendum for legal inclusion into the ITN/procurement process. 5.4 DISCLOSURE AND CONFIDENTIALITY Florida's Public Records Law, Chapter 119, Florida Statutes, includes numerous exemptions to the general requirement to disclose information to the public in response to a public record's request. Exemptions are found in various provisions of the Florida Statutes, including but not limited to Section 119.071, Florida Statutes (General exemptions from inspection or copying of public records), and Section 119.0713, Florida Statutes (Local government agency exemptions from inspection or copying of public records). Section 815.045, Florida Statutes (Trade secret information), provides that trade secret information as defined in Section 812.081, Florida Statutes (Trade secrets; theft, embezzlement; unlawful copying; definitions; penalty) is confidential and exempt from disclosure because it is a felony to disclose such records. The Parties understand and agree that Florida's Public Records Law is very broad and that documents claimed by a Party to be confidential and exempt from public disclosure pursuant to the Public Records Law may in fact not be deemed such by a court of law. Accordingly, the following provisions shall apply:

- i. Identifying Trade Secret or Otherwise Confidential and Exempt Information. For any records or portions thereof that bidder claims to be Trade Secret or otherwise confidential and exempt from public disclosure under the Public Records Law, bidder shall:
 - a. Specifically identify the records or specific portions thereof that are confidential and exempt and reference the particular Florida Statute that grants such status. Provide one redacted copy of the record and one copy of the record with the confidential and exempt information highlighted as outlined in items 1 and 2 on the following page. Bidder shall take care to redact only the confidential and exempt information within a record.
 - b. Provide an affidavit or similar type of evidence that describes and supports the basis for Contractor's claim that the information is confidential and exempt from public disclosure.

ii. Request for Trade Secret or Otherwise Confidential and Exempt Information.

- a. In the event ARPC receives a public records request for a record with information labeled by bidder as Trade Secret or otherwise as confidential and exempt, ARPC will provide the public record requester with the redacted copy of the record and will notify bidder of the public records request.
- b. However and notwithstanding the above, in the event that ARPC in its sole discretion finds no basis for bidder's claim that certain information is Trade Secret or otherwise confidential and exempt under Florida's Public Records Law, then ARPC shall notify bidder in writing of such conclusion and provide bidder a reasonable amount of time to file for declaratory action requesting a court of law to deem the requested information as Trade Secret or otherwise as confidential and exempt under Florida's Public Records Law. If bidder fails to file for declaratory action within the reasonable amount of time provided, then ARPC will disclose the information requested.
- c. If a public records lawsuit is filed against ARPC requesting public disclosure of the information labeled by bidder as Trade Secret or otherwise as confidential and exempt, ARPC shall notify bidder and bidder shall intervene in the lawsuit to defend the nondisclosure of such information under Florida's Public Records Law.
- d. Bidder hereby indemnifies and holds ARPC, its officers and employees harmless from any and all liabilities, damages, losses, and costs of any kind and nature, including but not limited to attorney's fees, that arise from or are in any way connected with bidder's claim that any information it provided to ARPC is Trade Secret or otherwise confidential and exempt from public disclosure under Florida's Public Records Law.

How to Designate Trade Secret or Otherwise Confidential and Exempt Information

If a bidder believes that its response contains trade secret or otherwise confidential and exempt information (as defined by Florida or Federal law) and should be withheld from disclosure to the public, in such cases the bidder must provide a redacted copy of the proposal for public access.

- Redacted means that the confidential/proprietary information in the proposal has been obscured so that it cannot be read.
- Unredacted means that the entire document, including the confidential/proprietary information, has not be obscured and is visible for the evaluation team to use in their evaluation process.

Deliver version of the response of the complete UNREDACTED proposal. Include "UNREDACTED,

CONFIDENTIAL” in document title. This is the version that will be used by the evaluators when they are reviewing your proposal. It is essential that the items that will be redacted are highlighted in yellow to prevent the evaluation team from discussing these items after the award. The first page of the document for the **unredacted** document should provide a general description of the information bidder has designated as confidential and/or exempt, and provide a reference to the appropriate Florida or Federal statute supporting the confidential and/or exempt classification.

In addition a REDACTED copy of the proposal should be delivered contemporaneously. Include “REDACTED” in the document title. This copy will be used to support any public records requests that may arise from this solicitation.

How the ARPC will Handle Material Identified as Trade Secret or Otherwise Confidential and Exempt Information

The ARPC evaluators will be provided with the complete unredacted proposal, including any trade secret or otherwise confidential and exempt information. The ARPC evaluators will maintain the confidentiality of the information through the evaluation process, including any recorded evaluation team meetings.

In the event a public record request is made to view the information which bidder claims is confidential and/or exempt, the ARPC will notify the bidder and give the bidder a reasonable opportunity (generally 2 business days) to institute appropriate legal action to prevent the disclosure of the information claimed as confidential and/or exempt.

All public records submitted to the ARPC , including those claimed as confidential and/or exempt, will be retained by the ARPC and will not be returned to a bidder at the conclusion of the bidding process.

5.5 EXCEPTION TO THE ITN

Bidders may take exceptions to any of the terms of this ITN unless the ITN specifically states where exceptions may not be taken. Should a bidder take exception where none is permitted, the proposal will be rejected as non-responsive. All exceptions taken must be specific to allow ARPC a meaningful opportunity to evaluate and rank proposals.

Where exceptions are permitted, the ARPC shall determine the acceptability of the proposed exceptions and the proposals will be evaluated based on the proposals as submitted. The ARPC, after completing negotiations, may accept or reject the exceptions. Where exceptions are rejected, the ARPC may request that the bidder furnish the services or goods described herein, or negotiate an acceptable alternative.

NOTE: Bidders are strongly encouraged to submit any deviations or exceptions to the ARPC before the question submittal deadline, so that based upon the ARPC response in the addendum, the bidder can determine if it is in their best interest to submit a response or not.

5.6 ONLY ONE BID

Only one bid from any individual, firm, corporation, organization or agency under the same or different name shall be considered. Should it appear to the ARPC that any bidder has a financial interest in more than one submission under this bid, all bids in which such bidder has a financial interest will be rejected. A subcontractor is permitted to appear in more than one submittal for the same bid, as long as the subcontractor is not a lead bidder in any of the submittals. The ARPC considers a financial interest to include, but not be limited, to joint ventures and, partnerships.

5.7 FULLY INFORMED BIDDER

A bidder is expected to fully inform itself as to the requirements of the Specifications and Contract terms and conditions; failure to do so will be at its own risk. A bidder shall not expect to secure relief on the plea of error.
