

ARPC Revolving Loan Fund (RLF) Application

The Apalachee Regional Planning Council (ARPC) provides small business expansion and start-up loans. The money borrowed under this program can be used for machinery and equipment purchases, inventory purchases, working capital needs, land and building purchases/renovations, leasehold improvements, and professional contract services shown to advance business plan objectives. **THE LOAN CANNOT BE USED TO PAY EXISTING DEBTS.** The loan structure and terms will depend on the amount borrowed, the use of funds, the strength of the borrower, and the collateral offered. As a loan applicant, you must demonstrate good character, acceptable credit, enough management expertise and commitment for a successful operation, and show that there is a reasonable assurance that the loan will be repaid.

This RLF Application asks a series of questions aimed at determining the following:

- Your business activity, products, and services.
- Your business's viability and potential for growth.
- Your financial commitment and commitment to maintaining your company in the region.
- The level of risk the ARPC RLF program takes on by assisting your business.
- How well your business fits into the economic development plan of the Apalachee Region.

NOTE: All submissions must be signed and dated. All loans will require a personal guarantee from the principal applicant (borrower). All applicants (borrowers) must provide adequate collateral and submit financial/job creation statements as requested for adequate monitoring by the ARPC.

RLF APPLICATION – Required Forms

Form A – Loan Application: This form covers general business information.

Form B – Personal Financial Statement: This form gives us a big picture of your assets and liabilities/net worth.

Form C – Monthly Business Expenses: This form gives us an idea of what your monthly business expenses currently are and how they will change given the additional monthly loan payment. The purpose here is to make sure your business is bringing enough money in to cover the proposed loan payment.

Form D – Assets/Collateral: This form is where you list the assets you have that could be utilized as collateral and what they are currently worth. Remember that the collateral has to be worth at least the amount of money you are requesting as a loan.

Form E – Monthly Personal Income/Expenses: This form helps us verify that based on your monthly income, you are able to comfortably handle your current personal expenses (and that you are not at risk of having your personal expenses carry over into your business expenses).

We also require several supplementary documents to support the information you are giving us.

ARPC RLF Application – Form A

We also require several supplementary documents to support the information you are giving us.

RLF APPLICATION – Supplementary Documentation

- Profit & Loss Statement** -- if you have been in business for at least 1 year
- Balance Sheet** – if you have been in business for at least 1 year
- Copies of your 2019 & 2020 Tax Returns** – Personal tax returns if you are a start-up business, Business tax returns if you have been in business for 2 years
- Credit Report/Score** – refer to [Free Credit Reports | FTC Consumer Information](#) (it will take about a 15-day turn-around time).
- Lean Business Plan** – on a separate sheet of paper, please provide a custom ‘lean’ business plan based on the format below. *If your business already has a business plan, you may submit that instead.*
 - A. You will start with your business strategy – this is what you are going to do and what your goals are. You will document the following:**
 1. **Identity:** This is a short summary of what you do.
 2. **Problem:** Describe the problem that your business solves.
 3. **Solution:** Describe how your business solves the problem.
 4. **Target Market:** Who are your customers? Try and be as specific as possible.
 5. **Competition:** How do customers solve their problem today? Are there alternatives?
 - B. Next, you will go on to describe your business tactics. While strategy describes “what” you’re going to do, tactics describe “how” you are going to do it.**
 1. **Sales:** How will you sell your solution to your customers?
 2. **Marketing:** Describe your key marketing activities.
 3. **Team:** Potentially the most important part of the plan is who is going to help you implement the plan. (i.e., Will you have other employees or are you the sole proprietor?)
 4. **Partners & Resources:** What else do you need to turn your plan into a business?
 - C. Your business model is how your business will make money. The first time you work on a lean business plan, you can just describe how you make money and what your key expenses are. Eventually, you will want to develop a complete financial plan.**
 1. **Revenue:** Describe the key ways that you will make money.
 2. **Expenses:** List your primary expenses. You do not need to go into a lot of detail with a lean plan.
 - D. Finally, you will want to develop a list of your key achievements.**
 1. **Milestones:** These are the key achievements that you hope to accomplish. Be specific.
